P.B.No.432, Madra.5.

TO

The Secretary to Government
Development Department,
Madras.

No.4078.D.1/49 Dated the14th October 1949.

Sir,

Sub: Industries -Sericulture - Government Silk Filatures, Kollegal - Experimental Weaving Section - Installation of power looms - Purchase of Weaving and doubling machinery - proposals.

Ref. 1.G.O.No.3076 Dev. datd 7.6.49.
2. This office letter No.186.D.1/49 dated 23.9.49.

*****

As indicated in this office letter cited, I submit herewith detailed estimates (appended) showing the recurring and non-recurring expenditure involved in starting a weaving section in the Government Silk Filatures, Kollegal with twenty power looms. The total non-recurring expenditure on the purchase of twenty power looms and other accessories works out to Rs.1,00,000/- and a sum of Rs.5,65,200/- would be required towards recurring expenditure. The gross profit anticipated is Rs.42,800/- per annum and deducting depreciation, interest on Capital outlay, audit and direction fees on the approved rates, a net profit of Rs.6,700/- pr annum, which works out at 6.2% on the capital outlay could be anticipated.

I have explained in detail the necessity for the starting of a power loom weaving section in the Government Silk Filatures, in this office letter No.186.D.1/49 dated 1.3.49 and Government have already approved in principle the proposal for installing twenty power looms with necessary accssories. This section will be worked as an adjunct to the Government Silk Filatures, Kollegal along with the twisting and winding sections sanctioned in G.O.No.3819 Dev. dated 19.7.48.

I request that Government may be pleased to sanction at an early date, a sum of Rs.1,00,000/- towards non-recurring expenditure and Rs.5,65,200/- towards recurring expenditure on the establishment of a weaving section in the Government Silk Filatures, Kollegal consisting of twenty power looms and with necessary accessories.

The expenditure may be debited to the Government Silk Filature Head of account.

For Director of Industries & Commerce.

B.24.10.

14/10/49

Encl: 1 Estimate

Remarks on the detailed estimates

1. Site. The weaving section will be an adjunct to the Govt. Silk Filatures, Kollegal and will be an integrated part of the twisting ~~xyx~~ section.

2. Buildings. The existing buildings in the Govt Silk Filatures, will be utilised for the entire twisting as well as weaving machinery.

3. Water supply and electrical connections. The expenditure indicated is exclusive of the provision made separately for the installation of Atwood twisting machinery.

4. Erection of machinery. It is expected that electric wiring has to be provided for each loom for connecting individual motors.

5. Furniture and fixtures. Certain special types of furniture such as cloth examination tables, dye section wash table etc. have to be provided for. Special lighting equipment may also be necessary for the twisting machinery.

6. Machinery. The details shown under this head are the minimum equipment necessary for efficient working of the section.

7. Miscellaneous machinery equipment. Provision of Rs. 5,000/- has been made for the purchase of spares, electric motors for the dye section and for any unforeseen items of expenditure.

Staff

(a) Work in both twisting and weaving including dye section s will not only be heavy but highly specialised. It is therefore highly necessary to have qualified Textile Expert as Manager (Weaving) on Gazetted rank.

(b) Establishment. As it is necessary to work the weaving section in two shifts to reduce the cost of production, three posts of Textile Assistants have been indicated of whom two will work alternately in shifts in the weaving section while the third will work entirely in the Dyeing and Finishing section. Other technical posts such as Foremen, Warper and Asst. Foremen have been reduced to the minimum number without impairing the efficiency.

The post of store accountant is necessary and the incumbent will have to furnish cash security as raw materials such as raw silk, thrown silk, dyestuff, gold lace and silk fabrics whose value may be Rs.4 to 5 lakhs will be under his control at any time. His work will be supervised by the commercial Accountant of the Govt. Silk Filatures. A lower division clerk is also necessary to cope with correspondence work while the Sales Clerk will attend to sales in the Factory.

A sum of Rs.1,100/- has been provided under T.A. It may be necessary for the Officer-in-Charge of Weaving section to tour some of the important places to push the sales of silk cloth.

COST OF RAW MATERIALS.

Raw silk produced at the filatures will be consumed, A rate og Rs.6/- per lb. as the throwing charges has been taken into account but actually it ought to be at the actual cost as the twisting section when it is installed will be an adjunct to the filatures. But, however, for purpose of estimation, a rate of Rs.34/- for 20/22 rereeled filature silk and Rs.6/- per lb. towards throwing charges has been assumed.

Provision under dyestuff and chemicals and gold and silver lace is considered adequate.

Wages including D.A.

As could be seen in the estimate, the labour strength is put at the minimum. It is desirable to fix piece work wages instead of daily or monthly wages to weavers for obvious reasons of efficiency. A skilled weaver easily earns about Rs.3/- a day for laced fabrics and Rs Rs.1/8/- a day for plain fabrics. Hence the piecework wages have been indicated at 8 as. and 4 as. a yard for laced designs and plain cloth respectively. It is expected that a quantity of 8 yards of cloth will be produced in each shift.

Motive Power.

The provision made is considered adequate.

Other Charges.

The twisted yarn on barrels has to be set in steam by keeping the barrels in a steam chest. The degumming and dye section is expected to work once a week. As there will be a common boiler working for both the filatures and dye section a nominal moiety of expenditure of Rs.100/- p.m. has been indicated for being debited to the dye section.

Repairs renewals, cotton, grease etc. may entail an expenditure of Rs.250/- p.m. which is considered adequate.

Advertisement in all the dailies etc is necessary. There will be need to appoint agencies also to push on the sales. Hence a sum of Rs.1,000/- p.m. has been provided for in the estimate.

Receipts.

The average cost of production per yard for both laced and plain silk fabrics works out to Rs.7/14/- and the selling rates have been kept at Rs.7/- per yard. for plain and Rs.9/12/- a yard. for laced design silk fabrics. These rates are considered to be competitive taking into consultation the selling rates of foreign silk fabrics that may be available in the Indian market. According to the present quarantine of duty levied on silk cloth of foreign origin, the approximate selling price should be Rs.6/12/- a yd. for 36" wide cloth. Thus the selling rates assumed in our estimates for 45" to 48" wide fabrics are quite competitive. On this basis, the gross profits anticipated are Rs.42,800/- and after providing for depreciation at 7½% and interest at 4% on capital outlay and interest at 4% on working capital and audit and direction charges, the net profit anticipated is Rs.6700/- which is very conservative and which works out a percentage return of 62 on the capital outlay. As already indicated, when the thrown silk is got at the actual production cost from the twisting section, the cost of production of cloth will be substantially reduced. It may be reasonably expected to increase the production of cloth also as efficiency of work improves. All these factors when taken into account in actual working will lend to augment the profits of the concern.

DETAILED ESTIMATES FOR INSTALLATION AND WORKING OF 20 POWER LOOMS AT THE GOVERNMENT SILK FILATURES, KOLLEGAL.

* * *

1. Building, plant and machinery.

1.Site		Nil
2.Buildings		Nil

Note The existing buildings at the Govt. Silk Filatures will be made use of.

3.Water supply and electrical installations.

A. Water supply extensions.		Rs. 5,000 0 0
B.Electrical installations - relating to looms Dye section and a portion of the twisting machinery proposed to be purchased locally	L.S.	Rs. 8,000 0 0
4, Erection of machinery	L.S.	Rs.5,000 0 0
5. Furniture and fixtures	L.S.	Rs. 2,000 0 0

6. Machinery

Note: The cost of twisting machinery ordered through M/s-W.H.Brady & Co. and also of local twisting machinery proposed to be purchased has not been included in the estimate.

Weaving section

a) Power Looms 56" to 60" reed space of 120s with drop box and dobbies including electric motor etc. at Rs.3,000/- each		Rs.60,000 0 0
b) Warping machine		Rs. 3,000 0 0
c) Firm Winding machine - 1 No.		Rs. 4,000 0 0

Fort St. George, Madras.

Sir,

Sub:- Industries - Sericulture - Government Silk Filatures, Kollegal - Installation of Power Looms.

Ref:- Government Memorandum No.104972-DI/49-2, Development, dated the 16th December 1949.

In G.O.No.3819, Development, dated the 19th July 1948, Government have sanctioned the installation of a silk twisting plant as an adjunct to the Government Silk Filatures, Kollegal, and in pursuance thereof I have already placed orders with Messrs Brady & Co., Madras, for the supply of the plant and paid a sum of Rs.1,13,460/- to the firm as advance payment as sanctioned in G.O.No.5073, Development, dated the 15th October 1949. The machinery is likely to be received within the current financial year. The installation of power looms is a necessary corollary to the installation of the twisting plant as without the former, the latter cannot be put to effective use. Both these constitute integral parts of the scheme calculated to convert the raw silk now produced in the ~~plantations~~ into silk fabrics and thus ensure a ready and profitable source of disposal of the production of the filatures. It is hoped, as already explained in this office letter No. 186-D.1/49 dated the 1st March 1949 addressed to Government, that the installation of both the twisting and the weaving plant as adjuncts to the filatures, would go a long way to overcome the far too often erratic fluctuations in the raw silk market, by utilization of a part of the production of the filatures for conversion into fabrics and thus to stabilise the financial position of the filatures. Further, the scheme regarding the installation of the power looms is expected to prove in the long run remunerative.

In the above circumstances, I request that Government may be pleased to approve the proposal submitted in my letter No. 4078-D.1/49 dated the 14th October 1949.

Hdrs (D Dept)

Memo. No. 10497.2 DI/49-4 dated 16-3-50

Sub: Industries - Sericulture - Govt Silk Farms, Kollegal - Experimental Weaving section - Installation of powerlooms - Proposals.

Ref: Letter from the DIsc No. 4078 DI/49 dated 14-10-49
Letter from the DIsc No. 4078 DI/49 dated 12-1-50

For the detailed estimates for the installation and working of 20 powerlooms in the G.S.F., Kollegal submitted with his letter first cited, the Director has proposed the employment of the following staff with the scales of pay indicated against each:

1) Warper (1) ——— Rs. 60-80
2) Lower Division clerk (1) - Rs 45-75
3) Sales clerk (1) — Rs 45-75

(1) Warper:— It is not known on what basis the Director has suggested a scale of pay of Rs 60-80 for this class of worker. In this connection Govt. observe that Assistants in the Govt Handmade paper section are paid in the scale Rs. 60-4-80. The Director is therefore requested to state whether the scale of pay of the Warper now proposed is the same as that of the Assistant in the Govt Handmade Paper Section and if so, to furnish detailed particulars regarding the qualifications required for the post of Warper in the G.S.F., and that for Assistants in the Govt Handmade Paper Mills in order to enable the Govt to examine the suitability of the scale of pay proposed by for Warper.

(2) Lower Division clerk:- As the scale of pay suggested for this post is the same as that of Storekeeper in the G.S.F., Kollegal the Govt consider that in order to avoid a misunderst

P.T.O

re post may be straightaway designated as Storekeeper. The D I Fe is requested to state whether he has any objection to this.

3) Sales clerk:- It has been observed that there doesn't appear to be any other posts of Sales clerks in the Industries Deptt. The nature of work proposed to be entrusted to this Sales clerk is not known. The Director is requested to explain in detail with full particulars the need for the post of Sales clerk at this stage in the weaving section.

An early reply is requested.

From

Sri M.T. RAJU, Bar-at-Law, I.C.S.,
Director of Industries & Commerce,
Madras.

To

The Secretary to Government,
Development Department,
Fort St. George, Madras.

Sir,

Sub:- Government Silk Filatures, Kollegal - Experimental Weaving Section - Installation of Power Looms - Proposals.

Ref:- Government Memorandum No.104972-DI/49-4, Development, dated the 16th March 1950.

I offer below my remarks on the various points raised in the Government Memorandum cited.

(1) Warper: The warper has to attend to the preparation of warps required for the looms and also to the preparation of designs for weaving various patterns of silk cloth. The work relating to the preparation of warps is a specialised one and the warper has to prepare a warp of nearly 200 to 250 yards in length for each power loom. Besides practical experience in the line, the warper should hold diploma or a certificate of proficiency in sectional warping and designing issued by recognised textile institutes.

As two important and specialised duties, viz., warping and designing are attached to the post of warper, a scale of pay of Rs.60-80 was suggested. As regards the Assistants in the Hand-Made Paper Section, no ad hoc rules were framed. The scale of pay of these Assistants was Rs.60-4-80. For the sake of uniformity the time scale of the posts of warper may also be fixed as Rs.60-4-80.

(2) Lower Division Clerk: The Lower Division Clerk is intended to cope with the correspondence work as distinct from the work of a store-keeper. However, I have no objection to the designation of the Lower Division Clerk being changed to Store-Keeper, but suggest that the pay of the post may be fixed as Rs.45-90 instead of Rs.45-75 as originally proposed.

(3) Sales Clerk: The sales clerk is intended to look after the sales of silk fabrics in the show room which will be attached to the Government Silk Filatures, Kollegal. It is essential that there should be a wholetime man to attend to the sales in the show room.

2.0

As it is essential that the sales work should not suffer, I request the post may kindly be sanctioned. The pay of the Sales Clerk may please be fixed in the scale of Rs.45-90 in order that it may be in line with the scale of pay of similar clerical posts.

No.4078 D1/49 dated 7/9/50.

93129 Dev(Ind) 12.9.50

Sir,

Sub: Industries - Sericulture - Government Silk Filature, Kollegal - Installation of weaving section - Proposals.

Ref: Government Memo.No.104972 M1/49-7 Dev. d/7-6-'50.

The requirements of silk to work all the looms proposed to be installed at the Government Silk Filature, Kollegal will be about 10,000 Lbs ~~allotted~~ per annum and the quantity of cocoons required to produce this will be about 2 lakhs Lbs. Only, as against the estimated annual production of 30 lakhs Lbs in Kollegal area. It may thus be seen that no difficulty need be apprehended as regards procurement of the cocoons necessary for the production of silk required to work all the looms.

2. The present cost of production of silk at the Government Silk Filature, Kollegal works out to about Rs.55/- per Lb on the basis of Rs.2-12-0 per Lb of cocoon. This excessive cost is due to the prevailing abnormal prices of cocoons but it is expected that this is only a temporary phase and that the cost of production will come down to Rs.40/- per Lb. when conditions return to normal.

3. In regard to the extra cost that will be involved at the Government Silk Filature, Kollegal ~~amount~~ of the establishment of the weaving section, I invite reference to the detailed estimate submitted with my letter dated 14/10/49 where the recurring and the non-recurring expenditure were shown as Rs.5.65 lakhs and 1 lakh respectively. As, however, the former figure includes a sum of Rs.4.12 lakhs towards the cost of raw silk, which will not really be incurred in view of the fact that the raw silk is taken only from the Government Silk Filature stocks, the expenditure will be reduced by this amount, ie. the actual recurring expenditure will be only ~~1.53~~ 1.53 lakhs.

Director of Industries & Commerce.

Memo: 104972 MI/49-11 d. 28.11.50.

Sub: Industries - Sericulture - G.S.F. Kollegal - Installation of weaving section - Proposals.

Ref. From the Dte No 4078 DI/49. d. 7.9.50.

—×—

The scheme for the establishment of a weaving section with twenty powerlooms in G.S.F Kollegal is reported to be remunerative by the Dte. But the net profit of Rs 2400/= is so small that it can easily be converted into a net loss if the cocoon market turns out to be unfavourable. The Dte is therefore requested to report urgently, whether his calculations will not be upset by dearth of cocoons in the coming years.

To

The Dte.

DEPUTY ASSISTANT SECRETARY TO GOVERNMENT
24 JAN 1951
DEVELOPMENT DEPARTMENT

I submit that the estimated profit of Rs. 2400/- indicated in the proposals submitted to Government was arrived at a on a very conservative basis taking into account the most adverse conditions which the silk market may have to face. It is considered that no serious apprehension should be entertained about the dearth of cocoons in the coming years in view of the fact that the Central Silk Board has been launching measures designed to expand Sericulture and ensure early attainment of self sufficiency in silk. The silk market is fairly steady now and there has been a good increase in the acreage under mulberry cultivation in our own State. In the circumstances, it would be reasonable to hope that not only will there be no dearth of cocoons in the coming years but the supplies of Cocoons will be more plentiful than in the past. The scheme may therefore be expected to prove highly remunerative and I therefore request that Government may be pleased to accord early sanction to the same.

		Rs.	Rs.	Rs.	Rs.
48a. Industries.	P. G.S.F., Kollegal.	5,69,000	1,00,000	2,84,600	1,00,000

EXPLANATORY NOTE.

The proposal is to purchase 20 powerlooms and to establish a weaving section in the Government Silk Filatures Kollegal. In G.O.3819 Dev. dated 19-7-48, Government sanctioned the installation of a silk twisting plant as an adjunct to the Government Silk Filatures, Kollegal and in pursuance thereof the D. I & C., placed orders with M/s Brady & Co., Madras for the plant. The D. I & C., has reported that Silk Twisting Plant has arrived and is being installed at the Filatures. The installation of powerlooms is a necessary corollary to the installation of the twisting plant as without the former, the latter cannot be put to effective use. Both these constitute integral parts of the scheme calculated to convert the raw silk now produced in the Filatures into silk fabrics and thus ensure a ready and profitable source of disposal of the production of the filatures. The Director reports that his proposal would also go a long way to overcome the far too often erratic fluctuations in the raw silk market and that the utilisation of a part of the production of the Filatures for conversion into fabrics will stabilise the financial position of the Filatures. He also reports that the scheme regarding the installation of powerlooms is expected to prove remunerative in the long run. The Government have

have already accepted in principle the proposal for establishing powerlooms with necessary accessories and incurring the expenditure therefor from the sum of Rs. ~~1¼~~ 1·25 lakhs, rendered surplus out of the expenditure sanctioned for the purchase of a silk twisting plant.

G O 3076 D 7-6-49 Pf 9-10 CF

The proposal involves a total non-recurring expenditure of one lakh of rupees on the purchase of ~~the~~ looms and accessories and a recurring expenditure of Rs.5,69,000 and a net profit of 2.4% on the capital outlay is indicated. Finance Department have agreed to the proposal of the D. I & C. As the cost involved in the above proposal exceeds Rs.10,000 per annum recurring, the case is placed before the S.F.C. for orders, whether the purchase of ~~the~~ powerlooms and installation and ~~the~~ establishment of a weaving section in the Govt. Silk Factories, Kollegal proposed by the D. I & C., may be sanctioned.

Pf 21-22

Circulated to all HHs.

SECRETARY TO GOVERNMENT
DEVELOPMENT DEPARTMENT
17 AUG 1951

Dated the 14th August, 1951.

90446

17 AUG 1951

My dear Lobo Prabhu,

I was in Kollegal recently and was sorry to see that power looms have not yet been installed. I believe there is a proposal pending with Government for the purchase of twenty power looms for the Government Silk Filatures at Kollegal.

I have been to Kollegal quite a few times and have been impressed with the excellent work done in the Silk Farm and in the Silk Filatures. I feel that any expenditure incurred on installation of power looms for the Silk Filatures will be a gilt-edged investment. By increasing production of high quality materials, it would not merely add to the profits of the Silk Filatures - it would enhance its reputation and lead in the long run to more and more business.

I do hope you will not think that I am unduly interfering; while I appreciate that this reference may be regarded as somewhat gratuitous, I would seek your good offices in obtaining early sanction to the installation of the power looms as I am convinced that such improvement will lead to enhanced prestige (as also increased profit) of the Silk Filatures.

Yours sincerely,

(V. N. RAJAN)

Sub: Industries - Sericulture - G.S.F. Kollegal - Experimental weaving section - Installation of powerlooms - Purchase of weaving and doubling machinery - Proposal of the D. I & C. approved.

Read:
G.O.Ms.3819 Dev. dated 19-7-1948
G.O.Ms.3076 Dev. dated 7-6-1949.
From the D. I & C. No.4078/D1/49 dt. 17-1-51.

G.O.Ms.No. 4025 Dated 8.5.51

In G.O.No.3819 Dev. dated 19-7-48 the Government sanctioned the installation of a silk twisting plant as an adjunct to the G.S.F., Kollegal for the production of twisted yarn. In G.O.No.3076 Dev. dated 7-6-49 the Government approved in principle the proposal of the D. I & C. to install at the Filatures twenty powerlooms with necessary accessories for dyeing, bleaching etc. and to incur the expenditure therefor from the sum of Rs.1.25 lakhs rendered surplus from the expenditure sanctioned for the purchase of a silk twisting plant. The Director was requested to submit detailed proposals with full financial implications. The D. I & C. has accordingly submitted proposals for establishing a weaving section with 20 powerlooms in the G.S.F. Kollegal. The establishment of powerlooms is stated to be a necessary corollary to the installation of a silk twisting plant, which is being installed at the Filatures, as without the former the latter cannot be put to effective use. Both these constitute integral parts of the scheme for conversion of raw silk produced at the Filatures into Silk fabrics, which will go a long way to stabilise the financial position of the Filatures and avoid losses on account of far too erratic fluctuations in the raw silk market. H.E. the Governor of Madras approves the proposal of the D. I & C.

2. H.E. the Governor of Madras sanctions the employment of the following staff for a period of one year from the date of appointment for work connected with....

with the weaving section.

One Manager (weaving) gazetted on Rs.230-410 p.m.

Three Textile Assistants on Rs.290-120 each p.m.

Two Foremen on Rs.45-75 each p.m.

One warper on Rs.60-80 p.m.

Two assistant Foreman on Rs.24-35 each p.m.

One Accountant on Rs.80-110 p.m.

One Storekeeper on Rs.45-75 p.m.

3. H.E. the Governor sanctions a recurring expenditure of Rs.1,38,200/- (Rupees one lakh ~~and~~ thirty eight thousand and two hundred) only towards working expenses and a non-recurring expenditure of Rs.1,00,000/- (Rupees one lakh) only towards the purchase of machinery as detailed in the Annexure to this order.

4. ~~Necessary provision will be made in the B.E. for 1951-52 under~~ "43. Industries and Supplies - a.Industries - P.Government Silk Filatures, Kollegal". ~~The A.G. is requested to admit the expenditure in audit pending provision of funds.~~

Pending approval by the legislature the expenditure will be met initially from an advance taken from the contingency fund and orders in regard to this will be issued separately from the Fin. Dept. The expenditure will be finally debited to

Department of Industries and Commerce.

From:
SRI M.T. RAJU BAR-AT-LAW, I.C.S.,
Director of Industries and Commerce,
Cathedral P.O., MADRAS.6.

To:
The Secretary to Government,
Development Department,
Fort St. George, Madras
MADRAS.9.

No.4825/D1/49 dated 19th October, 1951. 115057

Sir,

Sub: Industries- Sericulture- Government silk filatures- Kollegal- Experimental weaving section- Installation of Power looms - Purchase of weaving and doubling machinery- regarding.

Ref: G.O.Ms. No.4025 Development dated 8th September, 51.

It would appear from para 1 of the G.O. cited above, that the non-recurring expenditure of Rs. 1,00,000/- sanctioned therein for the purchase of 20 power looms will have to be met from out of the sanction of Rs. 3,75,000/- accorded in G.O.Ms. No.3819 Development dated 19th July, 1948 for the purchase of twisting plant as originally proposed in this Office letter No.186/D1/49 dated 1-3-1949. In this connection, I invite Government's kind reference to this office letter No.186-D1/49 dated 23rd September, 1949 in which I had explained that on account of the devaluation of the Rupee in terms of American Dollars by 30 per cent, the cost of the twisting plant in Rupee value ordered from the United States of America would be increased by 30 per cent and that consequently it would not be possible to meet the expenditure on the purchase of power looms from the sanction of Rs. 3,75,000/-. Reference to this letter was also made while submitting detailed proposals in this office letter No. 4078-D1/49 dated 14-10-49 for the purchase of 20 powerlooms for the Government silk Filatures, Kollegal.

In the circumstances stated above, I request that Government may be pleased to make it clear that the sanction accorded in the G.O. cited is independent of the sanction accorded in G.O.No. 3819 Development dated 19-7-1948, so as to avoid a possible audit objection at a later date.

V.S. Rajaraman.

In G.O.No.3819, Development, dated 19-7-48, sanction was accorded to an expenditure of ~~Rs.3.75~~ Rs.3.75 lakhs for the installation of a Silk Twisting

SECRETARIAT 80776 NOV 1961 REVENUE DEPARTMENT

Plant at the Government Silk Filatures, Kollegal. In March 1949, the Jt.D.I.& C. reported that a saving of Rs.1.25 lakhs was anticipated from the above amount and requested that it might be utilised for the installation of a Weaving Plant. The proposal was approved in principle in G.O.No.3076, Development, dated 7-6-49 and the D.I.& C. was asked to submit detailed proposals furnishing the recurring cost involved. In October 1949, the D.I.& C. submitted detailed proposals in this regard and they were sanctioned in G.O. No.4025, Development, dated 8-9-51.

2. The D.I.& C. has now reported that it appears from para 1 of G.O.No.4025, Development, dated 8-9-51 that the expenditure of Rs.1 lakh sanctioned in the G.O. for the purchase and installation of the weaving machinery should be met from the amount of Rs.3.75 lakhs sanctioned for the installation of a Silk Twisting Plant. The Director has drawn attention to his letter dated 23-9-49 in which he had reported that the saving of Rs.1.25 lakhs anticipated from the amount of Rs.3.75 lakhs sanctioned for the Silk Twisting Plant would not materialise on account of the devaluation of the rupee in relation to the dollar. The Director has therefore requested that, in the above circumstances, it may be made clear that the sanction accorded in G.O.No.4025, Development, dated 8-9-51 is independent of the sanction accorded in G.O.No.3819, Development, dated 19-7-48. Development support the proposal. Finance may agree.

4/Dev (DI) Dept

C.No. 104972/49

Sub: Industries - Sericulture - Govt Silk Filatures, Kollegal - Experimental weaving section - Installation of powerlooms - Purchase of weaving and doubling machinery - Proposals.

Ref: 1. Letter from the DJ&C No 4078 DI/49 dated 14-10-49
2. Issued as Memo No 104972 DI/49-1 dated 19-11-49
3. Letter from the DJ&C No 4078 DI/49 dated 12-1-50

Please see the letter from the DJ&C and enclosures cited 1st to 7th cf, the memo at 9th cf and the Director's reply at 13th cf.

For the G.O.MS.No 3076 Dev dated 7-6-49 while sanctioning the continuance of the experimental weaving section in the G.S.F Kollegal for a further period of one year the Govt approved in principle the proposal of the DJ&C to install twenty powerlooms with necessary accessories for dyeing, bleaching etc and to incur the expenditure therefor from the saving Rs 1.25 lakhs rendered surplus from the expenditure sanctioned for the purchase of a silk twisting Plant in the G.O.MS No 3619 Dev dated 19-7-48 As the Director had not indicated the exchequer recurring cost involved in the maintenance of the powerlooms he was also asked to submit detailed proposals in that regard with full financial implications, for the approval of the Govt.

Accordingly the Director submitted his detailed proposals for the with full financial implications involved for the installation of 20 powerlooms with the necessary accessories vide his letter cited 14-10-49 1st cf.

From the proposals it was observed that the scheme involved a total non-recurring expenditure of Rs 1,00,000 on the purchase of 20 powerlooms and other necessary accessories and a recurring expenditure of Rs 5,65,200. The scheme was calculated to give a profit

anticipated is Rs 42,800 per annum and deducting depreciation, interest on capital outlay, audit and direction fees on the approved rates, a net profit of Rs. 6,700 per annum, which works out at 6.2% on the Capital outlay could be anticipated. In view of the fact that As the scheme involved such a large expenditure, though to Govt remunerative in the long run, his the Govt's Memo dated 19-11-49 the Director was addressed drawing the attention of the Director on para 1 to the instructions issued in the Fin Memo. No 57293 A/P W R-3 dated 12-10-49 and he was asked to show justify state how the scheme involving such a large expenditure is justifiable in the present financial Condition stringency of the province and why the scheme should not be postponed for the present. His reply at P. 13 C/f may be ~~at P. 12 C/f~~ perused.

2. The Director states that as orders have already been placed with M/s Boardy and Co., Madras for the supply of the fabricating plant, paying an advance of Rs 1,18,460 to the firm, the receipt of which is expected with in the current financial year, the installation of power looms is a necessary Corollary to the installation of the twisting plant as without the former, the latter cannot be put to effective use. As both these two machineries constitute integral parts of the scheme of Converting the raw silk now produced in the G.S.F into silk fabrics and thus ensure a ready and profitable source of disposal of the production of the filatures the Director considers that the installation of power looms will not only overcome the fairly too often erratic fluctuations in the raw silk markets but also will stabilise the financial position of the filatures as the since the scheme is expected to prove remunerative in the long run remunerative. The Director in this Connection it may also be added that on the stern demand of M/s Boardy & Co, Madras the other half of the price of the twisting plant to be paid

E II

49

5

after receipt of the machinery has been ordered to be paid even before the receipt. The Director therefore requests the Govt to sanction a sum of Rs1,00,000 towards non recurring expenditure and Rs 5,65,270 towards the recurring expenditure on the establishment of the weaving section in the G.S.F, Kollegal consisting of 20 power looms with necessary accessories.

7-4 F.I

from 3 as p.c.f

In the circumstances stated above it is for orders whether this Deptt may accept and support ~~the undertaking the~~ a lump sum income and sanction the expenditure as required by the Director at present as suggested by the Director. After orders are passed the file may be sent to F for remarks

i.e., Percentage return on capital outlay =	2.4%	

3/ The necessity for the starting of a power-loom-weaving section in the Govt. Silk Filatures is explained in detail in the D.I & C's letter, on pp.5-7 CF. of G.O. 3076 Dev., dated 7-6-49, and again at p.13 CF. The Govt. have already accepted in principle the proposal for the installation of 20 power-looms with necessary accessories and to incur the expenditure therefor from the sum of Rs 1.25 lakhs rendered surplus from the expenditure sanctioned for the purchase of a silk twisting plant, in G.O. Ms. 3819 Dev. dated 19-7-48.

Further, the details of expenditure and anticipated receipts indicate a net profit of 2.4% for the Govt. on the capital outlay.

In the circumstances, Finance may agree to the proposals, subject to orders being taken in circulation including H.M(Fin), specifically in regard to the essentiality of the scheme for introduction now when there is an acute financial stringency prevailing.

4./ The staff proposed is stated to be the minimum essential for working the new Weaving Section without impairing the efficiency and may be generally agreed to, subject to the following remarks:-

(a) Warper (Rs 60--80). It is not known on what basis the D.I & C. has suggested a scale of Rs 60--80 for this class of worker. It may be mentioned in this connection, that Assistants in the Govt. Handmade-Paper Section were paid in the scale of Rs 60-4-80. (It is presumed that the scale was proposed for the Warper is the same) Development may be requested to call for further particulars from the D.I & C. regarding the qualifications required for the post of Warper in the Govt. Silk Filatures and that for Assistants in the Govt. Handmade-Paper Mills and to examine the suitability of the scale proposed for Warpers.

(b) Lower Division Clerk(Rs 45--75). The Govt. scale for L.D. Clerks is Rs 45--90. The scale, suggested by the D.I & C. for this post is that applying to Storekeepers in the Govt. Silk Filatures, Kollegal.

6/52

To avoid a misunderstanding, this department may suggest that the post may be straightaway designated as "Storekeeper". MM 6/3/50 B

(c) Sales Clerk (Rs 45--75). There do not appear to be any other posts of Sales Clerks in the Industries Dept. The nature of work proposed to be entrusted to this Sales Clerk is not known. Unless stronger grounds are adduced in support of the proposal to appoint a Sales Clerk at this stage in the Weaving Section, Finance would advise against it. C MM 6/3/50

5/ The other items of recurring expenditure, which appear to be based on the actual requirements for the working of the section do not call for any special remarks. A 6/3/50 MM 6/3/50

The bulk of the recurring expenditure represents the cost of raw silk & other materials.

6/ The details for the Non-Recurring expenditure of Rs 1,00,000 will be found at p.5 CF. No expenditure is to be incurred on account of site and buildings as the existing buildings at the Govt. Silk Filatures will be made use of. The other detailed items are not susceptible of check and may be allowed to stand, subject to the remark that the D.I & C. should be asked to keep down the expenditure on these items to the absolute minimum required for running the section efficiently. A 6/3/50 MM 6/3/50

7/ Financial Procedure. The expenditure involved should be treated as on a "New Service" and the case placed before the S.F.C. and the Cabinet. A supplementary estimate of expenditure would also have to be got authorised by the Legislature. Z A 6/3/50

Kh 1-350 1350

In the circumstances stated by the Dir. of Ind. & Commerce on p.13 c.f., the present proposals may be generally accepted subject to the remarks above. The full complement of the staff proposed will not have full work in the beginning. The Dir. may be asked to employ the staff as & when the necessity arises, the staff proposed being regarded only as the maximum staff to be employed.

[From the D.I. & C., Madras letter no. 4078-DI/49 D. 29/3/50]

Please see the reply from the D.I. & C., at PP 19-20 cf to this department's Memo. at PP 15-16 cf. The points raised by Finance at A, B and C on PP 5-6 above are examined below in Consultation with the D.I. & C :-

See (a) in Fin notes on P. 5 above

(a) Warper (Rs 60-80) :- As two important and specialised duties of warping and designing mentioned at X on Page 19 cf have been attached to the post of warper the D.I. & C has suggested a scale of pay of Rs 60-80. No ad hoc rules were framed for Assistants in the Hand-Made Paper Section and it is also understood that the Hand-Made paper units have since been abolished. The D.I. & C considers that for the sake of uniformity the time scale of the posts of warper may also be fixed as Rs 60-4-80. This may be accepted in this dept. for orders.

X on P. 19 cf

ascertained from Dept (DII)

K on P. 19 cf

(b) Lower Division clerk :- The D.I. & C has no objection to the designation of the L.D clerk being changed to store-keeper but suggests that the pay of the post may be

See (b) in Fin notes on PP 5-6 above

P on P 19 cf

54

fixed as Rs 45-90 instead of Rs 45-75 as originally proposed. Submitted that if the pay of the post is fixed as Rs 45-90 there is no need to change its designation to Store-keeper. As the Director says that the L.D. clerk is intended to cope with the Correspondence ~~clerk~~ work this dept. may sanction a L.D. clerk on Rs 45-90. For orders.

P on P. 19 Cf

N on P. 19 Cf

Clerk 9550 N.

(c) Sales clerk :- For the reasons stated at 2 on pp 19-20 the D.I.L.C requests that a Sales clerk maybe sanctioned in order that the post may be in line with the scale of pay of similar clerical posts. The Director also requests that the pay of the Sales clerk may be fixed in the scale of Rs 45-90. This dept. may agree. For orders.

L on P. 20 Cf

Clerk 9537 M.

After orders are passed the file maybe sent to Finance.

of a Sales clerk also, for the reasons given at Z on pp 19-20 CF.

3. It is submitted that, as a Store Keeper is to be employed, who will be available for attending to the sales, in the 'Show-room', there seems to be no need to appoint a whole-time Sales-clerk also. However, if in the actual working of the Weaving Section it is, later on, realised that a whole-time Sale-clerk is necessary, the D.I.&C. may come up to the Govt. Finance may advise that, for the foreseit, the employment of a whole-time Sales-clerk is not necessary.

The D.I.&C. has not adequately explained the need for a full time Sales clerk. He may be asked to work with the Store Keeper for some time & then a Sales clerk if found necessary could be appointed.

5/ With the above remarks the case may be returned to Development.

Development Department.

Summarising note.

This file deals with the proposal of the D. I & C., for establishing a weaving section with 20 power looms in the Government Silk Filatures at Kollegal. The establishment of power looms is stated to be a necessary corollary to the installation of a silk twisting plant already sanctioned, as without the former the latter cannot be put into effective use. Both these consititute integral parts of the scheme for Conversion of raw silk produced at the filatures into silk fabrics. The Government have already accepted in principle the proposal for establishing powerlooms with necessary accessories and incurring the expenditure therefor, from the sum of Rs.1¼ lakhs rendered surplus out of the expenditure sanctioned for the purchase of a silk twisting plant.

2. The financial effect of the proposal is shown below:

I. RECURRING	Average pay Rs.	Dearness allowance. Rs.	Total p.m. Rs.

(4) Audit and direction fees	2500	
	36608	or (-) 36,600 roundly)
Net profit		2400
i.e. percentage return on capital outlay. - 2.4%		

M

It will be seen that the proposal involves a total non-recurring expenditure of one lakh of Rs. on the purchase of the looms and accessories and a recurring expenditure of Rs. 5,69,000 and that a net profit of only 2.4% on the Capital outlay is indicated.

3. The following staff are proposed to be employed by the D. I & C. for working the new weaving section.

One Manager on Rs. 230-410

Three Textile Assistants 90-120 each.

Two Foremen 45-75 each.

One warper 60-80

Two Assistant Foremen on Rs.24-35 each.

One Accountant on Rs. 80-110 each

One L.D.Clerk on Rs. 45-75 or 90

One Sales Clerk on Rs. 45-75 or 90.

Finance Department have agreed with this Department to allow

allow all the above staff on the scales of pay noted against each except ~~in the case of~~ the L.D.Clerk and Sales Clerk.

4. As regards the L.D. Clerk the scale of pay originally proposed by the D. I & C. is Rs.45-75. As the scale of pay for L.D.Clerk's post is Rs.45-90 and the store keepers in the Govt. Silk Filatures at Kollegal are allowed a scale of pay of Rs.45-75, ~~Fin have~~ Finance have suggested that the proposed post may straightaway be designated as Storekeeper. The D. I & C. while offering his remarks ~~i~~ on this suggestion has stated that the incumbent is intended to cope with correspondence as distinct from the work of a Storekeeper and that he has no objection to designate the post as Storekeeper and suggested that the pay of the post may be fixed as Rs.45-90 instead of Rs.45-75 as originally proposed. ~~There upon this Department have held the view that a L.D.Clerk's post on Rs.45-90 may be sanctioned, as its incumbent has to attend to correspondence work also.~~ Finance are however of the opinion that a Store keeper's post on Rs.45-75 will do for the purpose as a storekeeper can also attend to correspondence work. Finance view may be agreed to and a Storekeeper's post on Rs. 45-75 may be sanctioned. For Orders.

31.550

5. Regarding the sales clerk the D.I & C originally proposed a scale of pay of Rs.45-75 only. The fact that sales clerk's post do not exist in the Industries Department was taken to his notice and he was asked to explain in detail the need for the post. He replied that the sales clerk is intended to look after the sale of silk fabrics in the show room for which a whole time servant is required and that the sales clerk may be allowed a L.D.Clerk's scale of pay of Rs.45-90. ~~This department have agreed with the D. I & C. to sanction a sales clerk on Rs.45-90.~~ But Finance are of the ~~xx~~ view that there is no need for a full time sales clerk and that the Storekeeper can carry on the sales for some time. They have also pointed out that the D. I & C. may come up for a sales clerk's post if and when found absolutely essential. Finance view may be agreed to and the post of the Sales Clerk need not now be sanctioned. For orders.

31550

6. Compared to the large capital to be invested in the scheme, the profit estimated is very small. It is for consideration whether the proposal to establish a new weaving section at an approximate cost of Rs. ~~1,50,000/-~~ 1 lakh non-recurring & Rs 5,69,000 recurring may be sanctioned now when there is acute financial stringency, in view of the fact that the scheme is expected to be remunerative in the long run, and that a net profit of 2.4 % on the capital outlay of Rupees one lakh is indicated; if so, whether the case may be placed before the S.F.C. and Cabinet and a supplementary statement of expenditure may be got authorised by the Legislature in due course.

The case may be circulated to H.M.(Ind) and H.M.(Finance).

8/ 31/9/50 31/5/50

The Government Silk Filatures, Kollegal is now producing raw silk from cocoons. The proposal in this file is to purchase 20 power looms and to establish a weaving section in the Govt. Silk Filatures.

(1) What is the extra cost involved in this proposal?

(2) Is there not a dearth of cocoons now, and if so will there be immediate work for the looms, if they are installed?

(3) Examine the net profit on the capital out-lay now proposed on the purchase of the looms.

CKB 5/5/50

Items (1) and (3) above:— Excluding the value of raw silk produced by the filatures viz. Rs.3,50,200, the extra cost involved in the proposal is Rs. 1,00,000/- non-recurring and Rs. 5,69,000/- — 3,50,200 or Rs. 2,18,800/- recurring.

This may also be verified from the Dept CKB 7/6/50

The ...

The capital outlay on the scheme should include the value of silk produced by the Filatures and utilised for the production of silk fabrics. It is therefore submitted that there may not be any change in the net profit as estimated by the Director of Industries and Commerce.

Item (2) on p/3 above. - The Director of Industries and Commerce may be consulted on the question. A draft memo is submitted for consideration.

8/6/50 6/5/50. 7/6/50

(Issued as Memo. No. 10497 2 NG/49-7 Dev Dt. 7.6.50) P.21 cf.

From the D.I & C. letter No. 4078 DC/49 Dt. 7.3.50. P 23 cf.

To A.S.

The summarising notes from p. 9 above, the memo. on p. 21 cf and the letter from the D.I&C. at p.23 cf. may be perused.

2. For the reasons stated in para 1 of his letter at p. 23 cf. the Dir. reports that there will be sufficient cocoons for the production of silk required to work all the looms to be installed. The Dir. also states that the present cost of production of silk at G.S.F., Kollegal works to about Rs. 55/- per lb. and considers that the cost of production will come down to Rs. 40/- per lb. when conditions return to normal. ✓ para 1 at p. 23 cf. ✓ para 2 at p. 23 cf.

3. It is also pointed out by the Dir. that the extra cost that will be involved at the G.S.F., Kollegal on account of the establishment of the weaving Section will be Rs. 1.53 lakhs recurring and Rs. one lakh non-recurring. In his letter at P. 1 cf, the Dir. reported that the recurring expenditure will be Rs. 5.65 lakhs. As this figure includes a sum of Rs. 4.12 lakhs towards the purchase of raw silk which will not be incurred in view of the fact that the raw silk is taken only from the Filature stocks, the recurring expenditure will be only 1.53 lakhs. ✓ para 3 at p. 23 cf.

4. The full complement of the two steeping plants ~~(because away see cf for reasons)~~ yet have not been established. It is not known

No R10

when the plant will actually be installed and after installment when the plant will be worked successfully. There is therefore no hurry in setting up the power loom section. It seems to be desirable to consider the proposal for installing power looms after the results of the working the twisting plants are known. Further it is very doubtful whether the normal conditions will be restored soon as expected by the DIC and the cost of silk produced at the filatures will be brought down to Rs 40 per lb. Prices in Japan & Hongkong are offering filature silk at Rs 20 per lb. In this circumstances it is for consideration whether the scheme may not be postponed to the next year. The remarks of Dir of Agriculture enclosed.

SECRETARY TO GOVERNMENT
10 OCT 1950
DEVELOPMENT DEPARTMENT

To DS.

The proposal to establish a new weaving section at the Govt Silk Dilatures, Kollegal involves a cost of 1 lakh non-recurring and Rs 69,000 a year recurring and a net profit of Rs 2400 per annum 2.4% on the capital outlay of Rs 1 lakh is indicated. According to the instructions issued in GO. No. 713 Dev dt 20.7.50, only those schemes which will involve very little recurring expenditure and which are considered to be really and immediately essential for the proper running of the dept should be considered as Part II schemes and in regard to remunerative schemes those which will result in a net revenue even in the first year may however be proposed. The scheme in this file falls under the latter category and may therefore be considered as a Part II scheme for 1951-52. The remarks of Dir may be invited.

Dir

Dev Sec 106972 dt/4-10-50
30 Copies

Q.H.46.
9 OCT 1950

Part II scheme for 1951-52

(Finance last saw on p 15 above)

The file deals with the proposal to establish a weaving section with 20 power looms in the Govt. ~~Silk~~ Filatures at Kollegal which involves a cost of Rs 1 lakh, non-recurring and Rs 5.69 lakhs p.a. recurring. The proposal has been examined in detail in this department's note on pp 3-6 above which may kindly be perused.

2. In view of the circumstances stated in para 4 of the ~~Dept~~ note on pp 14-15 above, Dept and Fin. were of the view that the scheme might be postponed for consideration next year. In his minutes on p 17 above, H.M. (Ind), however, considers that the proposals of the Dept should be pressed. Dept. have accordingly remitted the file to this department for treating the ~~Fin~~ proposal as a Part II scheme, with the remarks that the second criterion ~~laid down for Part II Schemes~~ referred to at 'K' on p 17 above has been satisfied. The recurring expenditure in this case is quite large viz Rs 5.69 lakhs, and the net return expected is only 2.4%, which is less than the ~~interest~~ rate at which this Govt. will have to pay interest for loans raised by them. Finance may, therefore, suggest that orders in circulation including HM. (Fin) may be taken on the point whether the proposal can be treated as a Part II Scheme for 1951-52.

Thro' BE II
16-11-50

Dept
16.11.50

It is no doubt true that the Scheme appears remunerative on paper according to the Calculations on pages 10-11 above but the net profit (Rs 2400) is so small that it can easily be converted into a net loss, if the Cocoon market turns to be unfavourable. If Dept consider that their calculations will not be upset by dearth of

'A'

65

Cocoons, Fin need not object to the ~~Scheme~~ proposal taking its chance as a Part II Scheme for 1951-2. Hte (Fin) Shd see.

28/11

p.25 C [Issued as Memo No 104972 M.I/49-11 d. 28-11-50]

p.27 Cf. [From the Dtte No 4078/D1/49 d. 17-1-51]

To As.

The Summarising note from ~~pate/headers~~ pp 9-13 above, Hon(ble) orders at p 17 above, Fin Dept's note at pp 18-19 and the Dtte's letter at p. 27 Cf. may be perused. The Dtte has stated that no serious apprehension need be entertained about the dearth of Cocoons in the coming years in view of the fact that the Central Silk Board has been launching measures designed to expand Sericulture, and that since there has been a good increase in the acreage under mulberry cultivation it would be reasonable to hope that there will not be no dearth of Cocoons but the supplies will be more plentiful. In the circumstances stated by the Dtte it is for orders whether the case may now be ~~considered~~ reconsidered ~~to Hon(ble) Hon'ble(fin)~~ taken as a Part II scheme for 1951-52.

This file deals with the proposal of the Dte for the establishment of a weaving Section with 20 power-looms in the G.S.F., Kollegal The establishment of power looms is stated to be a necessary corollary to the installation of a silk twisting plant. The Govt. have already accepted in principle the proposal for establishing power looms with necessary accessori and incurring the expenditure therefor out of the sum of Rs 1¼ lakhs rendered surplus in the expenditure sanctioned for the purchas of a silk twisting plant. The proposal involves a total non recurring expenditure of Rs 1.53 lakhs and a net profit of 2.4% on the Capital outlay is indicated. HH(Ind) & HM(Fin) agreed that the proposal might be considered as a part II scheme for 1951-52 as the looms were required to complete the unit for which the silk twisting plant had already been acquired. It was then too late to consider the proposals as a part II scheme for 1951-52. The Dte has reported separately that the installation of silk twisting plant is being taken up. Finance have agreed that the proposals may be considered as a scheme for introduction during the current year. Finance may see and say whether a Note for S.F.C., may be prepared.

(Govt)

Summarising note.

This file deals with the proposal of the D.I & C. for establishing a weaving section with 20 power looms in the Government Silk Filatures at Kollegal. The establishment of power looms is stated to be a necessary corollary to the installation of a silk twisting plant already sanctioned, as without the former the latter cannot be put into effective use. Both these constitute integral parts of the scheme for conversion of raw silk produced at the filatures into silk fabrics. The Government have already accepted in principle the proposal for establishing power-looms with necessary accessories and incurring the expenditure therefor, from the sum of Rs.1¼ lakhs rendered surplus out of the expenditure sanctioned for the purchase of a silk twisting plant.

The financial effect of the proposal is shown below:

	Average Pay Rs.	Dearness allowance. Rs.	Total per mensem Rs.
I. RECURRING --			
(a) STAFF -			
Pay of officer - Manager (Weaving) Gazetted (230-410)	334.0	58	392
Pay of establishment -- 3 Textile Assistants on Rs.90-120	324.9	81	405.9
2 Foreman on Rs. 45-75	126.6	48	174.6
1 Warper on Rs. 60-80	76.3	24	100.3
2 Asst. Foreman on Rs.24-35.	61.2	38	99.2
Ministerial -			
1 Accountant on Rs. 80-110	101.0	26	127
1 L.D.Clerk on Rs. 45-75	63.3	24	87.3
1 Sales Clerk on Rs. 45-75	63.3	24	87.3
	1150.6	323	1473.6

p.t.o.

Cost per annum 1473.6 x 12 - 17683.2 or 17,700 (roundly)		
Cost of staff		17,700
Travelling allowance		1,100
(b) Working expenses --		
Cost of raw materials (details in item III on p.6 c.f.)		4,94,500
Wages (details in item IV on p.6 c.f.)		37,500
Motive Power		2,000
Other charges (details in item VI on p.7 c.f.)		16,200
		5,50,200
Total (Recurring) Charges.		5,69,000
II. Non-recurring --		
Water supply extensions		5,000
Electrical Installations		8,000
Erection of machinery		5,000
		~~18,000~~
Furniture and fixtures		2,000
Weaving Section		67,000
Dye Section		7,000
Miscellaneous machinery (for details pl. see on p.5 c.f.)		6,000
		1,00,000
III. RECEIPTS -		
Gross Receipts (By sale of 72000 yards of production cloth)		6,08,000
Total recurring charges		5,69,000
Gross profit.		39,000 per annum.
DEDUCT --		
(1) Depreciation at 7½% on Rs. 1,00,000		7,500
(2) Interest on capital outlay at 4%		4,000
(3) Interest on working capital of Rs.5,65,200 at 4%		22,608
(4) Audit and direction fees		2,500
		36,608 or (-) 36,600 roundly)

Net Profit	2400
i.e. percentage return on capital outlay	2.4%

It will be seen that the proposal involves total non-recurring expenditure of one lakh of Rs. on the purchase of the looms and accessories and a recurring expenditure of Rs. 5,69,000 and that a net profit of only 2.4% on the Capital outlay is indicated.

3. The following staff are proposed to be employed by the D. I & C. for working the new weaving section.

One Manager on Rs.230-410

Three Textile Assistants 90-120 each.

Two Foremen 45-75 each.

One Wraper 60-80

Two Assistant Foremen on Rs.24-35 each.

One Accountant on Rs.80-110 each.

One L.D.Clerk on Rs.45-75 or 90

One Sales Clerk on Rs.45-75 or 90.

Finance Department have agreed with this Department to allow all the above staff on the scales of pay noted against each except the L.D.Clerk and Sales Clerk. As suggested by Finance Department this Department agreed to designate the post of L.D.Clerk into that of Store Keeper on a scale of Rs.45-75 Regarding sales clerk, Finance have pointed out that there is no need for a full time sales clerk and that the store keeper could carry on the sales for some time and that the D.I & C. may come up for a sales clerk's post if and when necessary. This Finance Department agreed.

When doubts regarding the availability of adequate supply of cocoons was raised, the D.I & C. pointed out, that no serious apprehension need be entertained about the dearth of cocoons in the coming years in view of the fact that the Central Silk Board has been launching measures designed to expand sericulture and that since there has been a good increase in the acreage under mulberry cultivation, it would be reasonable to hope that not only will there ~~will not~~ be no dearth of cocoons in the coming years but the supplies will be more plentiful than in the past. Though H.M. (Ind.) and H.M. (Fin.) agreed that the proposal might be....

43. Industries and supplies	a. Industries	P. Government Silk Filatures, Kollegal.	IL	100

EXPLANATORY NOTE.

The Government Silk Filatures was established during the second war to produce raw silk required for manufacture of parachutes for war. After the war ~~in~~ the silk is sold to consumers. There is a small twisting plant in the Filatures to produce twisted silk and a handloom weaving section consisting of 12 handlooms to utilise the twisted silk for production of silk fabrics. In 1948, the installation of a power twisting plant in the filatures was sanctioned. The installation of the plant is almost over and the plant will commence work soon and will be producing large quantities of twisted silk. The D. I & C. submitted proposals for the purchase and installation of 20 powerlooms in the filatures with necessary accessories for doubling, bleaching and dyeing of silk at an initial cost of Rs.1 lakh and recurring cost of Rs138,200 excluding expenditure on staff. The establishment of powerlooms is a necessary corollary to the installation of silk twisting plant. Both these constitute integral parts of the scheme for conversion of raw silk produced in the filatures into silk fabrics and go a long way to stabilise the financial positi

the filatures and avoid losses on account of far too erratic fluctuations in raw silk market. A net profit of 2.4, on the capital outlay is expected. The Government have sanctioned the proposals of the D. I & C. for the purchase of 20 powerlooms and for the establishment of a weaving section in the Government Silk Filatures, Kollegal with some additional staff.

The following staff have also been sanctioned:

One Manager (Weaving) Gazetted on Rs.230-410 p.m.

Three Textile Assistants on Rs.90-120 pach p.m.

Two foremen on Rs.45-75 each per mensem.

One Warper on Rs.60 -80 p.m.

Two Assistant Foremen on Rs.24-35 each per mensem.

One Accountant on Rs.80-110 p.m.

One Storekeeper on Rs.45-75 p.m.

The expenditure is on a New Service. A token sum of Rs. 100 is included in the Supplementary estimate. Pending approval by legislature the expenditure has been met initially from an advance from the contingency Fund. But

An advance of Rs 80,000 has been sanctioned from the Contingency Fund for meeting the expn on the scheme pending authorisation by the Legislature But actually no expn has been incurred during the current year. However as the expn sanctioned is on a New Service a token sum of Rs 100 is included in the Supplementary Estimate.

File reference: No. [illegible], dated [illegible] 195 .

UNDER SECRETARY 13 MAR 1953 DEVELOPMENT DEPARTMENT

Sir,

Sub: Industries - Sericulture - Government Silk Filatures, Kollegal - Installation of powerlooms - permission requested.

Ref: G.O. No. 4045, Development, dated 8-9-51. (B)

In the G.O. cited above Government were pleased to approve the proposal for establishing a weaving Section, with 20 powerlooms in the Government Silk Filatures, Kollegal; with a view to stabilise the financial position of the Filatures and avoid losses on account of far too erratic fluctuations in the raw silk market. At the instance of Government the Government of India have also taken action for the purchase of the 20 powerlooms of Japanese make vide letter No. [illegible], dated 8-1-53 of the Asst Director of Supplies addressed to Messrs Kotak & Co., Bombay copy sent to Government and this office letter No.4045-B1/51, dated 7-2-53).

In this connection I submit that the Textile Commissioner, Bombay who is also the Vice Chairman of the Central Silk Board, India, when he visited the Government Silk Filatures recently observed that permission of the Textile Commissioner should be obtained before the power-looms are installed. I therefore enclose herewith three copies of the prescribed applications form

pto

84.

duly filled and signed by the sericultural expert an request that Government may be pleased to address the Textile Commissioner, Simla, for according necessary permission for the installation of 20 powerlooms in the Government Silk Filatures, Kollegal.

for Director of Industries & Commerce.

M.S.9.2

CP

Dev. Deptt.(G).

Letter No.30109 G/53-1, dt. 23.3.53.

To

The Textile Commissioner, Govt. of India,
Hararwala Building,
Wittet Road, Ballard Estate
BOMBAY. (with enclosures)

Sir,

Sub:- Industries - Sericulture - Govt. Silk Filatures, Kollegal - Installation of power-looms - Permission.

I am directed to forward three copies of the application in the prescribed form duly filled in and to request that in the circumstances explained below necessary permission may be granted for the installation of 20 Power looms at the Govt. Silk Filatures, Kollegal.

2. During World War II there has been considerable expansion of the silk Industry in India and Madras had its full share in the increase of acreage under mulberry cultivation and in the establishment of the silk Filatures at Kollegal. The average monthly production of raw silk at the Filatures is round about 4300 lbs. There is at present only a small twisting plant at the Filatures and the major portion of the silk is sold as raw silk which is converted into thrown silk at Bangalore at the plants of private operators. With a view to maintain, consolidate and establish on a firm basis the expansion that has already taken place and to secure full scope for the future growth and development of the industry, the Govt. in July 1948 sanctioned the establishment of a silk Twisting Plant as an adjunct to the Silk Filatures at Kollegal at an estimated cost of Rs. 4,89,600/- non-recurring and Rs. 76,300/- recurring. The Twisting machinery has been erected and is expected to go into production in about a month's time.

3. The installation of powerlooms is a necessary corollary to the installation of the twisting plant as without the former, the latter

cannot be put to effective use. The Govt. have, therefore, in ~~May~~ September 1951, sanctioned the installation of 20 power looms at the silk filatures at an estimated cost of Rs. 1,38,200/- recurring and Rs. 1,00,000/- non-recurring. It is expected that the working of the twisting and power loom weaving sections would go a long way to overcome the far too often erratic fluctuations in the raw silk market by the utilisation of a part of the production for conversion into fabrics and thus to stabilise the financial position of the Silk Filatures.

4. In pursuance of the scheme for installation of the power looms, this Govt. have placed an indent for the purchase of 20 power looms and other necessary accessories with the Director General of supplies and Disposals, New Delhi, who has in turn placed firm orders and concluded the contract with M/s. Kotak & Co., Ltd. Bombay for the supply of looms of Japanese make. ~~It will be the responsibility of the Director General of Supplies and Disposals to see that the looms are duly received by them without serious financial repercussions.~~

5. In the circumstances explained above, I am directed to request that necessary permission may be granted for the installation of ~~the~~ 20 power looms at the Govt. Silk Filatures, Kollegal at a very early date.

Copy to the D.I.& C. w.r.t. his No.4825 D1/52, dt. 9-3-53.

Copy to the Director-General of supplies and Disposals. Shahjahan Road, New Delhi
